The Australian College of Emergency Nursing ACEN is pleased to offer this unique opportunity to undertake the TNCC course while enjoying an 8 night South Pacific Cruise from the 14th – 22nd March 2015 on board the world class Celebrity Solstice cruise ship.

TNCC is widely recognized as the premier course for hospitals and trauma centres worldwide, that empowers nurses with the knowledge, critical thinking skills, and hands-on training to provide expert care for trauma patients.

Rapid identification of life-threatening injuries
Comprehensive patient assessment
Enhanced intervention for better patient outcomes

ENA (USA) developed The Trauma Nursing Core Course to establish a standardized body of trauma nursing knowledge and to improve the care of all trauma patients. This seventh edition course combines interactive learning with scenario-based assessments to give nurses a comprehensive learning experience. The course includes:

A Systematic Approach of Initial Assessment
The first few minutes of trauma care are critical to achieve better patient outcomes. The A – I mnemonic and the Trauma Nursing Assessment will assist nurses in providing appropriate and early intervention.

Hands-on Training Using both an Individual and Team Approach
Three Psychomotor skill stations offer nurses the opportunity to practice the systematic approach of the initial assessment in real life situations. The skill stations covered are Trauma Nursing Process, Airway and Ventilation, and Trauma Interventions.

Intensive Course with Expert Instructors
TNCC is an Intensive Course that is taught by expert instructors. The content of this course will be facilitated over the duration of the cruise to allow you to enjoy both the course and all that the cruise has to offer

24 Chapter Comprehensive Manual
The TNCC Seventh Edition contains evidence-based content developed by trauma experts to reinforce and supplement the lectures and skill stations. It is a compilation of current trauma nursing standards and is a valuable resource for future reference.
Chapter Titles
Trauma Nursing and the Trauma Nursing Core Course
Spinal Cord and Vertebral Column Trauma
Teamwork and Trauma Care
Musculoskeletal Trauma
Epidemiology
Surface and Burn Trauma
Biomechanics, Kinematics, and Mechanisms of Injury
Special Populations: The Pregnant Trauma Patient
Initial Assessment
Special Populations: The Paediatric Trauma Patient
Airway and Ventilation
Special Populations: The Older Adult Trauma Patient
Shock
Special Populations: The Bariatric Trauma Patient
Pain
Special Populations: The Interpersonal Violence Trauma Patient
Brain, Cranial, and Maxillofacial Trauma Psychosocial Aspects of Trauma Care
Ocular Trauma
Disaster Management
Thoracic and Neck Trauma
Transition of Care for the Trauma Patient
Abdominal and Pelvic Trauma
Post Resuscitation Care in the Emergency Department

5 Online Modules with Live Links to Additional Information
These interactive modules allow students to apply what they learn and receive immediate feedback. The modules are a complete case study process—taking the nurses through an entire sequence of care. Online learning allows nurses to learn at their own pace and refer back to information at any time.

Evaluation, Verification, and Contact Hours
Successful completion of the course requires 80% or greater on the multiple choice exam and 70% or greater on the skill station evaluation.

ACEN will issue verification upon meeting the criteria noted above. The verification will expire four years from the last day of the month in which the card was issued.

Contact hours (20 CPD points) are awarded based on the hours attended, regardless of evaluation.

The TNCC Seventh Edition represents ENA’s and ACEN’s continued commitment to uphold their belief statements and provide quality, evidence-based trauma education for nurses worldwide.
