## ***Would you like to join us on a nine-day, eight-night Eastern Caribbean cruise in November 2018?***

Nurses from all practice areas join us for an action-packed, memorable eight-day adventure. Featuring education, networking, exploration, relaxation & fun.

The conference theme is the *Latest Advances in Health Care Delivery and their Implication for Nursing Practice*. The content will be both relevant and of interest to Nurses working in the acute hospital setting, community health, public health, aged care, and doctor surgeries. As well as those Nurses working in the area of policy development, health education, and nursing research.

Nurses who work in specialty fields such as child health, paediatrics, dermatology, mental health, operating theatres, and day surgery, to name a few, will also benefit from the conference content as the topics will impact on the delivery of Nursing services across the health care spectrum.

We'll combine education and pleasure: with education sessions provided and/or facilitated by Cheryl Dezotti and Sue Walker, both industry-recognised education experts.

We will explore a number of different ports and you will spend time with fellow Nurses in an exclusive setting, on one of the most exceptional ships sailing in the Caribbean the Harmony of the Seas

Your family and friends are more than welcome to join you. They will be spoilt for choice with activities to keep them busy aboard the ship while you attend the conference program. Then after-hours they can join you for all the on-board activities as well as our exclusive shore tours.
