Cruising to New Zealand departing Sydney
2 - 11 April 2020 | 18 CPD Hours

Unravelling the Complexities of Chronic, Hard to Heal, and Complex Wounds Conference (18 CPD Hours)

The Presenters:

Cheryl Dezotti

CHERYL DEZOTTI

R.N., M.Q.I.H.C., GRAD DIP Q.I.H.C., A.F.A.A.Q.H.C., MACN

Cheryl Dezotti is a co-founder of the Nurses for Nurses Network and the Nursing CPD Institute. As a Nurse Education Consultant, and a Wound Care Specialist.

Cheryl's varied and interesting career highlights include clinical experience in acute surgical, medical, and infection control. The completion of her Master's degree in Quality in Health Care led to senior management roles in both the acute and aged care sectors, the later leading to her appointment as a Nurse Advisor and Administrator with the Department of Health and Ageing.

Cheryl has worked extensively in the field of education in a number of healthcare and university settings. She has a long-standing passion for wound care and has lectured widely on the subject in both Australia and internationally. This passion has led her to author a wound assessment book as well as creating a postgraduate wound care course.

As an author, Cheryl's aim is to provide the reader with information that can be easily and practically applied in the clinical setting. As a presenter, Cheryl is known for her ability to deliver the complexities of clinical nursing research in a straight forward and easily understood format that allows attendees to easily apply the content to their individual clinical practice.

Cheryl's goal is to make a difference to the recipients of health care and she believes that a positive outcome for the patient can only be achieved if Nurses keep up to date with best practice guidelines and their practical application in the workplace.

Cheryl looks forward to sharing not only her many years of clinical experience but also to facilitating opportunities for attendees to share experiences and challenges with each other. There will be lots of fun to be had within the learning environment. Get ready to sail the high seas with us!
