Sue is passionate about making a difference in how the community and Nurses experience the healthcare system.

"Nurses are the backbone of the healthcare system and work in difficult environments that can take advantage of their commitment to ensuring the best possible care is delivered. To continue to meet professional and community expectations Nurses and Midwives need to acknowledge their unique contribution to health care delivery and assert their collective strength to safeguard the community and ensure their ongoing professional needs are recognised and met.

Healthcare should be delivered by competent, knowledgeable individuals to ensure the best possible experience for the recipient of that care. Nursing is a fabulous profession. The knowledge and skill of the individual Nurse will have the greatest influence on the happiness and health outcomes of each and every client".

***Sue looks forward to sharing not only her many years of clinical experience but also to facilitating opportunities for attendees to share experiences and challenges with each other. There will be lots of fun to be had within the learning environment.***
