ABOUT THE TOUR

We are delighted to present our exclusive Midwifery study tour for an unforgettable adventure through two of the most breathtaking countries in Latin America!

Starting with Colombia, you'll explore this home to vibrant culture and intriguing colonial history. Then travel to Peru, where you'll discover the renowned treasures and ancient Inca sites. This will be an immersive CPD journey that takes you from the Caribbean coast, through the Amazon and up to Machu Picchu – one of the Seven Wonders of the Modern World.

During this 12 night CPD professional study tour you will combine a rich cultural experience with visits to local hospitals, NGO's and charities, examining Midwifery, women's health and traditional medicine, in countries where modern and traditional health care are widely practiced.

Your conference days will explore current midwifery trends as they pertain to the Australian and South American contexts.

How does working with women differ and how is it the same?
Are the challenges encountered similar or different?
What cultural considerations influence care?
What can you take home to consider in your practice?

We will explore the science and art of midwifery in South America. We will consider available data on service provision and outcomes as well as the beautiful traditions practiced around motherhood on the other side of the South Pacific. Immerse yourself in learning about the way Midwifery works in Peru and Columbia and networking with like-minded Midwives in your profession.
